CUSTOMER DISPLAY VECTRON C11 POS 7

VECTRON

System concept

The customer display Vectron C11 POS 7 is the perfect completion to our POS system Vectron POS 7. It has a screen diagonal of 11.6", full-HD resolution of 1920 x 1080 pixels and a high-quality aluminium housing. From special offer via discount specials to invoice details and the digital receipt, the display shows your customers everything that is current and important. Display of receipts, images, slide shows and split screen mode are possible.

For optimum alignment to the customer's position you can adjust the display's inclination and rotation angle. Up to two peripheral modules such as a scanner or operator lock can be attached at mounting points.
